OFAC sanctioned four individuals and 41 entities that support the business network of Prince Group Transnational Criminal Organization (TCO) previously sanctioned by the United States for its role in cyber-enabled fraud, money laundering, and human trafficking. Additionally, OFAC designated a Malaysian individual who defrauded U.S. victims by managing a network of Africa-based scammers.

OFAC's action builds on OFAC's October 14, 2025 and June 23, 2026 designations targeting Prince Group leadership, affiliated companies, and financial facilitators. Prince Group TCO-affiliated actors have generated billions of dollars in illicit proceeds through sophisticated cyber-enabled fraud schemes, including digital asset investment scams, romance scams, and other online fraud that have victimized Americans and individuals around the world. Many of these operations have been linked to scam compounds in Southeast Asia that rely on trafficked and coerced workers,

while criminal proceeds are laundered through complex networks of offshore companies and financial facilitators.

The newly designated individuals and entities have helped sustain Prince Group TCO's illicit global operations after the October 2025 and June 2026 designations by managing offshore corporate structures, concealing beneficial ownership, facilitating commercial activities, and providing administrative and financial services to senior Prince Group TCO executives. Individuals targeted have participated in activities to evade previous sanctions targeting the Prince Group TCO, including the transfer of property and owning of companies with or on behalf of previously designated Prince Group TCO leaders. OFAC's action further targets the corporate and financial infrastructure that has enabled Prince Group TCO leaders to conceal assets, evade prior sanctions, and maintain access to the international financial system.

These actions are in furtherance of President Trump's Executive Order (E.O.) 14390 of March 6, 2026, "Combating Cybercrime, Fraud, and Predatory Schemes Against American Citizens," which orders the U.S. government to unleash every available tool to stop foreign-backed criminal networks that exploit vulnerable Americans through cybercrime, cyber-enabled fraud, and extortion. OFAC is designating 45 targets pursuant to E.O. 13581 ("Blocking Property of Transnational Criminal Organizations"), as amended by E.O. 13863 ("E.O. 13581, as amended"), and one target pursuant to E.O. 13694 ("Blocking the Property of Certain Persons Engaging in Significant Malicious Cyber-Enabled Activities"), as further amended by E.O. 13757, E.O. 14144, and E.O. 14306 ("E.O. 13694, as further amended").

As a result of OFAC's action, all property and interests in property of the designated persons described above that are in the United States or in the possession or control of U.S. persons are blocked and must be reported to OFAC. In addition, any entities that are owned, directly or indirectly, individually or in the aggregate, 50% or more by one or more blocked persons are also blocked. Unless authorized by a general or specific license issued by OFAC, or exempt, OFAC's regulations generally prohibit all transactions by U.S. persons or within (or transiting) the United States that involve any property or interests in property of designated or otherwise blocked persons.

Violations of U.S. sanctions may result in the imposition of civil or criminal penalties on U.S. and foreign persons.

OFAC may impose civil penalties for sanctions violations on a strict liability basis. In addition, financial institutions and other persons may risk exposure to sanctions for engaging in certain transactions or activities involving designated or otherwise blocked persons. The prohibitions include the making of any contribution or provision of funds, goods, or services by, to, or for the

benefit of any designated or blocked person, or the receipt of any contribution or provision of funds, goods, or services from any such person.

Non-U.S. persons are also prohibited from causing or conspiring to cause U.S. persons to wittingly or unwittingly violate U.S. sanctions, as well as engaging in conduct that evades U.S. sanctions.

The Department of State is designating eight entities and two individuals, and identifying five vessels as blocked property, to further the Trump Administration's comprehensive push to end the Cuban regime's malign activities, both in Cuba and across our hemisphere. This action includes targets associated with the Cuban regime's oil shipping networks, Cuban elites, state-owned import and technical-support entities, and China-based suppliers of the regime's military forces. All Department of State targets sanctioned have been designated pursuant to Executive Order (E.O.) 14404, which authorizes sanctions on foreign persons determined to meet specified criteria related to repression in Cuba and other threats to U.S. national security and foreign policy.

Additionally, OFAC issued a determination pursuant to E.O. 14404 that authorizes sanctions against any foreign person operating or having operated in the manufacturing, technology, electronics, and marine sectors of the Cuban economy. The identification of these new sectors targets the regime and those who enable it, not the Cuban people.

As a result of OFAC's sanctions actions, and in accordance with E.O. 14404 of May 1, 2026, "Imposing Sanctions on Those Responsible for Repression in Cuba and for Threats to U.S. National Security and Foreign Policy," all property and interests in property of the designated persons described above that are in the United States or in possession or control of U.S. persons are blocked and must be reported to OFAC. Additionally, all entities that are owned individually or in the aggregate, 50% or more by one or more blocked persons are also blocked.

All transactions and dealings by U.S. persons or persons within (or transiting) the United States that involve any property or interests in property of designated or otherwise blocked persons are prohibited unless authorized by a general or specific license issued by OFAC or exempt. These

prohibitions include the making of any contribution or provision of funds, goods, or services by, to, or for the benefit of any blocked person and the receipt of any contribution or provision of funds, goods, or services from any such person. Foreign persons that engage in transactions with persons designated pursuant to E.O. 14404—or that operate or have operated in the electronics, energy, defence and related materiel, manufacturing, marine, metals and mining, financial services, security, or technology sector of the Cuban economy, as identified in and determined pursuant to E.O. 14404—are themselves at risk of sanctions.

Non-U.S. persons, including foreign financial institutions, should proceed with caution in any dealings with a party sanctioned under this authority.

Actions to return assets to a sanctioned party or transfer them to another jurisdiction for potential use by the target expose non-U.S. persons to significant sanctions risk. All property and interests in property of persons that are blocked pursuant to the Cuban Assets Control Regulations (CACR) continue to be blocked. The CACR prohibits persons subject to U.S. jurisdiction from dealing in property in which Cuba or a Cuban national has an interest, unless authorized or exempt.

OFAC targeted the vast criminal network of India-based **Suniel Kumar Sharma** and his spouse, **Jaspreet Preeti Shahid**, who have supported Iran's shadow fleet through a web maritime fraud, by providing false flags and certifications to sanctioned vessels involved in transporting Iranian petroleum, including vessels operating on behalf of the Iranian military and its proxies. On this note, OFAC is targeting 13 individuals and companies in the Sharma network.

OFAC also sanctioned Türkiye-based **Fugo Ground Services Inc** for its ongoing services in support of Iran's aviation sector. Treasury has repeatedly warned that it will take action against those who continue to support Iran's aviation industry, a key enabler of the regime's destabilizing proliferation and terrorist activity.

Concurrently with these designations, OFAC is issuing a new alert to industry to warn of the sanctions risks of dealing with potentially falsely flagged vessels, reemphasizing previous warnings from Treasury to the maritime industry to screen against unscrupulous actors such as Sharma and the vessels his network supports. OFAC's action also follows through on Treasury's previous warning that any foreign firm or individual enabling sanctioned Iranian airlines—including through aircraft transfers, cargo services, or general sales agent support—will face serious consequences for supporting the world's leading state sponsor of terrorism. The designations imposed are being taken pursuant to Executive Order (E.O.) 13902, which targets the Iranian petroleum, petrochemical, and aviation sectors, among other key sectors of the Iranian economy.

As a result of OFAC's action, all property and interests in property of the designated or blocked persons described above that are in the United States or in the possession or control of U.S. persons are blocked and must be reported to OFAC. In addition, any entities that are owned, directly or indirectly, individually or in the aggregate, 50% or more by one or more blocked persons are also blocked. OFAC's regulations generally prohibit all transactions, unless authorized by a general or specific license issued by OFAC, or exempt, by U.S. persons or within (or transiting) the United States that involve any property or interests in property of blocked persons.

Violations of U.S. sanctions may result in the imposition of civil or criminal penalties on U.S. and foreign persons.

OFAC may impose civil penalties for sanctions violations on a strict liability basis. The prohibitions include the making of any contribution or provision of funds, goods, or services by, to, or for the benefit of any designated or blocked person, or the receipt of any contribution or provision of funds, goods, or services from any such person.

Non-U.S. persons are also prohibited from causing U.S. persons to wittingly or unwittingly violate U.S. sanctions, as well as engaging in conduct that evades or conspires to violate U.S. sanctions.

Financial institutions and other persons may risk exposure to sanctions for engaging in certain transactions or activities with designated or otherwise blocked persons, including the designated persons designated. This includes, in addition to blocking prohibitions, that OFAC can prohibit or impose strict conditions on opening or maintaining, in the United States, a correspondent account or a payable-through account of a foreign financial institution that knowingly conducts or facilitates any significant transaction on behalf of a person who is designated pursuant to the relevant authority.

Additional, OFAC published an Iran-related Alert, *"Iranian Shadow Fleet Reliance on False Flags for Sanctions Evasion".*

OFAC issued this alert in support of Operation Economic Outcast to highlight the substantial risk of designation or penalties for providing services to vessels using false flags to evade U.S. sanctions on Iran. A false flag is either a flag provided by a fraudulent registry that is not authorized by the host country or a flag falsely claimed by a vessel without supporting registration documentation.

A falsely claimed flag is a strong indicator that a vessel is sanctioned or engaged in sanctionable activity. Service providers, including insurers, financial institutions offering trade financing, and others providing services in the maritime sector, are encouraged to conduct enhanced due diligence on vessels with indicia

of using a falsely claimed flag. This due diligence can help such service providers avoid engaging in sanctionable or violative activity. Relevant red flags include:

- An unknown or no flag reported in maritime databases;
- A flag from a jurisdiction that is commonly listed as false in maritime databases;
- A vessel broadcasting a Maritime Mobile Service Identity number with a country prefix code that contradicts the reported flag of the vessel;
- A flag from a jurisdiction without a known flag registry; and
- Flag registration documentation that cannot be verified.

Treasury encourages countries to investigate and shut down actors fraudulently claiming to provide registry services under their flag. To obfuscate their fraud, registries providing fraudulent flag documentation will use fake websites or websites designed to mimic an existing official website—such websites are often sophisticated forgeries but may use incorrect domain names. Countries can report such fraudulent operators to the International Maritime Organization (IMO) to ensure maritime databases, including IMO's Global Integrated Shipping Information (GISIS) database, reflect that a fraudulently registered vessel is falsely flagged. Affected countries should take prompt action to avoid reputational and commercial harm that could arise from being associated with Iranian sanctions evasion.

3. OFAC Updates: Issuance of Amended Venezuela-related General License and Frequently Asked Question

On the 4th November 2026, OFAC issued the following Amended Venezuela-related General License:

- Venezuela-related General License 5AA, "Authorizing Certain Transactions Related to the Petróleos de Venezuela, S.A. 2020 8.5 Percent Bond on or After December 18, 2026".

GENERAL LICENSE 5AA, which replaces and supersedes General License No. 5Z, dated October 16, 2026, and is effective as of November 4, 2026, states that all transactions related to, the provision of financing for, and other dealings in the Petróleos de Venezuela, S.A. 2020 8.5% Bond that would be prohibited by subsection l(a)(iii) of Executive Order (E.O.) 13835 of May 21, 2018, as amended by E.O. 13857 of January 25, 2019, and incorporated into the Venezuela Sanctions Regulations, 31 CFR part 591 (the VSR), **are authorized**.

This general license does not authorize any transactions or activities otherwise prohibited by the VSR, or any other part of 31 CFR chapter V.

For more information, please see Venezuela-related General License 5AA.

OFAC 04/11 - Venezuela-related General License 5AA

In relation to the above, OFAC issued one amended Frequently Asked Question, FAQ 595**.**

FAQ 595 **-** What does Venezuela-related General License 5AA authorize?

The President issued Executive Order (E.O.) 13835 on May 21, 2018. Subsection 1(a)(iii) of E.O. 13835 prohibits U.S. persons from engaging in transactions related to the sale, transfer, assignment, or pledging as collateral by the Government of Venezuela (GOV) of any equity interest in an entity owned 50% or more by the GOV. One effect of subsection 1(a)(iii) is to require authorization before U.S. persons may engage in certain transactions regarding any equity interest in an entity owned 50% or more by the GOV. Subsequent to the issuance of E.O. 13835, OFAC received inquiries about how and whether subsection 1(a)(iii) of E.O. 13835 could affect the ability to enforce bondholder rights to the CITGO shares serving as collateral for the Petróleos de Venezuela, S.A. (PdVSA) 2020 8.5% bond. OFAC issued General License (GL) 5 on July 19, 2018, which removed E.O. 13835 as an obstacle to holders of the PdVSA 2020 8.5% bond gaining access to their collateral.

General License 5 was replaced and superseded by General License 5A on October 24, 2019 with a delay in the effectiveness of the authorization in the general license. Since that date, OFAC has extended the delay in effectiveness multiple times. Most recently, OFAC issued General License 5AA on November 4, 2026, which further delays the effectiveness of the authorization in GL 5 until December 18, 2026. Between October 24, 2019 and December 18, 2026 (the date the authorization in GL 5AA becomes effective), there is no authorization in effect that licenses against subsection 1(a)(iii) of E.O. 13835 applicable to the holders of the PdVSA 2020 8.5% bond. As a result, during such period, transactions related to the sale or transfer of CITGO shares in connection with the PdVSA 2020 8.5% bond are prohibited, unless specifically authorized by OFAC.

To the extent an agreement may be reached on proposals to restructure or refinance payments due to the holders of the PdVSA 2020 8.5% bond, additional licensing requirements may apply. OFAC would encourage parties to apply for a specific license and would have a favorable licensing policy toward such an agreement.

OFAC designated eight money services businesses based in Canada that enable the Iranian regime, sanctioned entities associated with the regime, and other illicit actors that move assets into and out of Iran. These companies facilitate the exchange of Iranian rials and other currencies for digital assets to enable international transactions involving Iran. Many of these businesses have facilitated transactions with sanctioned Iranian digital asset exchanges, as well as with digital asset addresses associated with Iran's Islamic Revolutionary Guard Corps (IRGC).

In August, Treasury launched Operation Economic Outcast to sever the economic lifelines that sustain the Iranian regime and its IRGC, including Tehran's exploitation of cryptocurrency as a tool of choice for sanctions evasion. OFAC's designations are a continuation of Treasury's comprehensive campaign to disrupt the regime's exploitation of digital assets to fund terrorism, human rights abuses, and attacks on U.S. personnel and allies. These designations also follow previous OFAC sanctions on digital asset exchanges that have moved digital assets abroad on behalf of the Iranian regime, including the June 2, 2026 designations of Iranian exchanges Nobitex, Wallex, Bitpin, and Ramzinex, and the August 7, 2026 designations of Aban Tether Exchange and SHPS Shelbit (Shelbit), which operates the Shelbit Exchange that has moved millions of dollars on behalf of the IRGC.

OFAC's action was coordinated with the Department of the Treasury's Financial Crimes Enforcement Network (FinCEN) and FINTRAC, Canada's financial intelligence unit. This action is also taken in coordination with the Drug Enforcement Administration (DEA) and reflects the Trump Administration's whole-of-government effort to combat the illicit use of digital assets for drug trafficking. Several of the entities designated in this action have also worked with the OFAC-sanctioned Canadian drug trafficker Ryan Wedding. Wedding has used money exchange businesses in the Vancouver and Toronto areas to

launder billions of dollars in drug proceeds. He has used couriers to transport bulk cash to those firms, which convert the funds to digital assets to send abroad. Wedding was apprehended in January 2026, but he worked with several of the money services businesses designated today to transfer millions of dollars' worth of digital assets prior to being taken into U.S. custody. OFAC's designations are imposed pursuant to Executive Order (E.O.) 13902, which targets the Iranian digital asset sector among other key sectors of the Iranian economy. The Department of the Treasury will continue to target not only the Iranian digital asset ecosystem, but also international entities and actors that help facilitate it. For more information on sanctions risk associated with Iranian digital asset exchanges, please see FAQ 1250 and FAQ 1257.

As a result of OFAC's action, all property and interests in property of the designated or blocked persons described above that are in the United States or in the possession or control of U.S. persons are blocked and must be reported to OFAC. In addition, any entities that are owned, directly or indirectly, individually or in the aggregate, 50% or more by one or more blocked persons are also blocked. Unless authorized by a general or specific license issued by OFAC, or exempt, OFAC's regulations generally prohibit all transactions by U.S. persons or within (or transiting) the United States that involve any property or interests in property of designated or otherwise blocked persons.

Violations of U.S. sanctions may result in the imposition of civil or criminal penalties on U.S. and foreign persons.

OFAC may impose civil penalties for sanctions violations on a strict liability basis. In addition, financial institutions and other persons may risk exposure to sanctions for engaging in certain transactions or activities involving designated or otherwise blocked persons. The prohibitions include the making of any contribution or provision of funds, goods, or services by, to, or for the benefit of any designated or blocked person, or the receipt of any contribution or provision of funds, goods, or services from any such person.

Non-U.S. persons are also prohibited from causing or conspiring to cause U.S. persons to wittingly or unwittingly violate U.S. sanctions, as well as engaging in conduct that evades U.S. sanctions.
